1. Practice Overview

About Us

Bureau Égyptien de Conseils Techniques (BECT) is an Expertise House in Engineering Consultancy (the highest ranking of consulting firms in Egypt), and certified ISO 9001:2015. **BECT** was established in Cairo since 1989, with a Saudi office located in Riyadh since 2007.

BECT has elaborated hundreds of projects in the fields of Planning, Urban Design, High-Tech Buildings, Transportation, Infrastructure, Industrial Installations, Health Complexes, etc. The studies of many projects were not limited to the architectural & civil aspects but also to all technical categories of the engineering fields including urban, landscape, geotechnical, electrical power networks & systems, mechanical systems, plumbing, HVAC, fire-fighting systems, in addition to environmental & social impact studies, etc.

Through these years, **BECT** has established a considerable experience in working with national as well as international organizations whether solely or as part of professional consortiums. In addition, **BECT** has had the privilege to elaborate several projects funded by IFI's such as World Bank (WB), European Investment Bank (EIB), European Bank for Reconstruction and Development (EBRD), the Asian Development Bank (ADB), etc.

Principles

- Executing well integrated projects serving the community.
- Implementing visions through creative concepts and ideas.
- Delivering high controlled quality projects.
- Improving continuously our capabilities and techniques.
- Creating well coordinated spaces satisfying the envisioned purpose.

Key Figures

2 international offices

16 different countries

30+ years of Experience

300+ Employees

500+ Projects delivered

ISO **9001: 2015** certification

1st Prize at the International competition for Master Plan and Urban Design of Ramses Square in Cairo , 2010

"Ensuring a high quality of the delivered projects is our most of important concern"

Expertise

Architecture

Focuses on serving the community as well as providing an unforgettable experience. We live in spaces that should accommodate and serve our needs. A good design is the one responding to the needs of its users while providing them with a rich experience.

Planning & Urban Design

Focuses on building a solid urban fabric with no futuristic restrictions to development and expansion. BECT's Urban Planning services span over a wide range of projects including metropolitan & regional developments, master planning and major urban upgrades.

Landscape

Outdoor arrangement & design is the heart of many projects allowing for social interactions. Several landscape designs have been achieved by BECT meeting both the aesthetic & functional purposes.

Company Profile

Structure

Ensures the safety & the endurance of the design. It supports the architecture design to reach the best outcome. Our team is very well acquainted with all structural building types varying in complexity.

MEP

Considered as the services associated with any project to create safe & comfortable environment. It covers the following : HVAC, Plumbing, Lighting, Fire fighting, Fire Alarm, Water Supply, Sanitary, etc.

Civil

Covers a variety of projects including: roads, bridges, buildings, airports, tunnels, dams, irrigation and water & wastewater.

Project Management & Supervision

Following up between the design team & the site supervision team is crucial in order to attain the optimum time, cost and quality performance.

Balgran Substation

2. Selected Projects

Urban Planning & Design + Urban Development & Upgrade

Wadi Jazan Resort

Type: Resort

Location: Jazan, KSA

Client: Ministry of Water & Electricity, KSA

Estimated Construction Value: 330 million SAR

Date of Accomplishment: 2015

Description: Jazan is called as the nature's treasure and the Pearl of the South and a place of diversity, kindness, and finest hospitality. It has high mountains with perennial green cover and it also includes spectacular waterfalls that create the most beautiful lakes which are no less splendid than the pristine beaches in the islands nearby. The project aimed at integrating the nature within the design creating a bond between the context and the project.

Service: Architecture, Civil/Structure, MEP, Landscape, Urban Planning & Design & Interior Design

King Abdullah Suburb in Jazan Region

JV with ACE (Moharram - Bakhoun)

Type: Landscape

Location: Jazan, Saudi Arabia

Client: Jazan Municipality

Date of Accomplishment: 2015

Service: All technical and professional services to complete the study and design for landscape of King Abdullah suburb in Jazan.

Soul Luxury Beach

Type: Resort

Location: Egypt

Client: Eagle Hills Properties/CIB

Date of Accomplishment: In Progress

Description:

Establishing a luxury resort including villas and buildings (141 villas +172 buildings) with high design standards on the North Coast.

Service:

Review Master plan and structural, architectural and electromechanical design drawings

Review work progress

Review the projects time schedule

Review the project's cash flow

Reviewing Quality and HSE plans and their application

City Gate Project

Type: Resort

Location: Egypt

Client: Bawabat Al Sharq Real Estate Investments/CIB

Estimated Construction Value: 1.7 billion EGP

Date of Accomplishment: In Progress

Description:

Construction of 302 residential villas in New Cairo - District 3 on an area of land about 255,000 square meters.

Service:

- Review Master plan and structural, architectural and electromechanical design drawings
- Review work progress
- Review the projects time schedule
- Review the project's cash flow
- Reviewing Quality and HSE plans and their application

Eastown Block 6

Location: Egypt

Client: SODIC/CIB

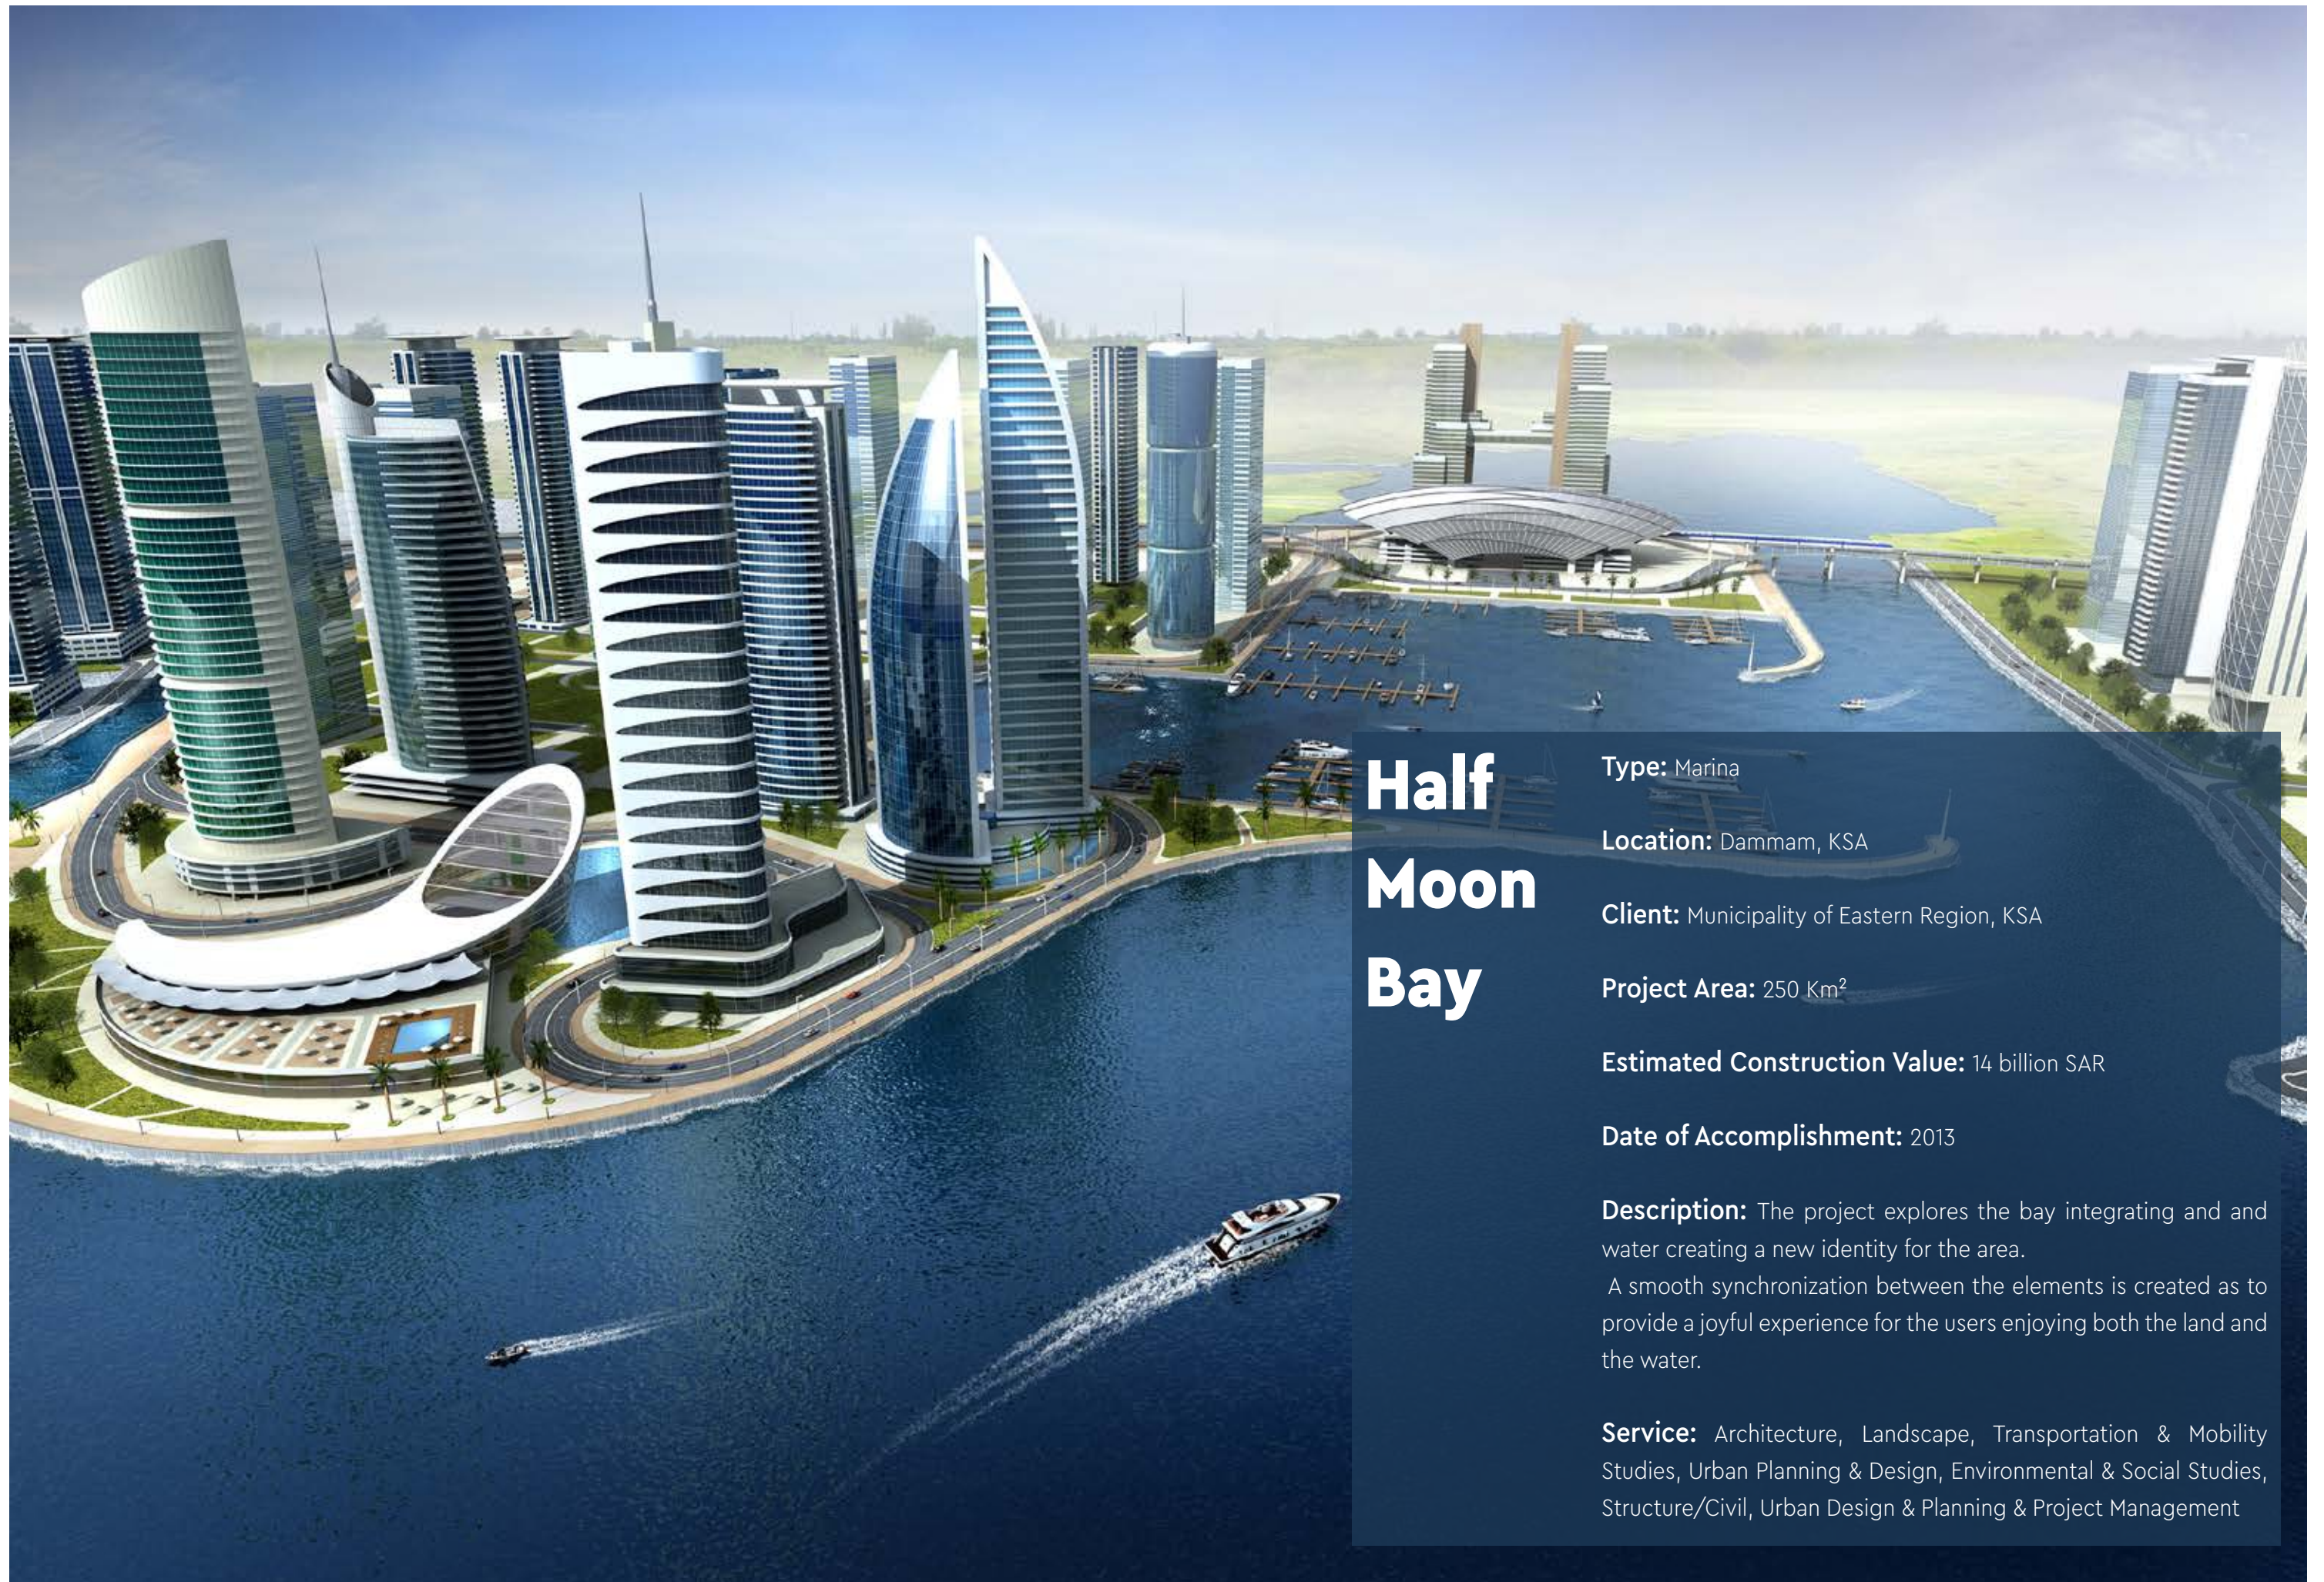

Date of Accomplishment: In Progress

Description:

Construction of 7 service housing units, 2 transformers, and 1 complete basement. The area is for buildings, a high ground floor , 3 floors, and a rooftop is 9,400 m².

Service:

- Review Master plan and structural, architectural and electromechanical design drawings
- Review work progress
- Review the projects time schedule
- Review the project's cash flow
- Reviewing Quality and HSE plans and their application

Half Moon Bay

Type: Marina

Location: Dammam, KSA

Client: Municipality of Eastern Region, KSA

Project Area: 250 Km²

Estimated Construction Value: 14 billion SAR

Date of Accomplishment: 2013

Description: The project explores the bay integrating land and water creating a new identity for the area.

A smooth synchronization between the elements is created as to provide a joyful experience for the users enjoying both the land and the water.

Service: Architecture, Landscape, Transportation & Mobility Studies, Urban Planning & Design, Environmental & Social Studies, Structure/Civil, Urban Design & Planning & Project Management

Local Area Development Plans-GIZ

Type: Informal Settlements

Location: Ain Shams, Cairo, Egypt

Client: GIZ

Date of Accomplishment: 2022

Description: The project focuses on the local socio-economic development in the informal areas of the Greater Cairo Region by enhancing the delivery of basic services. It therefore focuses on the provision of infrastructure benefiting the residents of the informal areas. The social and technical infrastructure is delivered in collaboration with the relevant local authorities and the communities of informal area residents. The project promotes the activities of local community groups by establishing a Local Initiative Fund, which will provide funding for socioeconomic activities performed by civil society organizations.

Service: Transportation & Mobility Studies, Informal Settlement Development, Urban Survey, Environmental & Social Studies & Urban Planning & Design

Upper Egypt Local Development Program- World Bank

Type: Urban Upgrading, Rehabilitation Interventions & Local Service Facilities

Location: Minya, Assiut, Sohag, Qena, Egypt

Client: World Bank and Government of Egypt

Date of Accomplishment: In Progress

Description: The UELDP has introduced improvements to the local administration practices in local planning by adding a program of investment and local development for rural and urban development projects. It aims at enabling local administration to plan and execute urban spaces in focal areas of cities or villages in an integrated manner that crosscut traditionally-separated sectors. This practice of integrated urban development and rehabilitation in urban and rural settings is new to local administration. Therefore, BECT team is providing technical support / capacity development in the field of urban planning & design.

Service: Guidelines for planning and designing selected three local services, Identification and prioritization of urban development interventions, Developing and supervising the execution of six urban development projects within the targeted interventions areas within six cities & Capacity building for relevant departments to urban development

Cosmos Village

Type: Cultural Village

Location: 6th of October, Egypt

Client: Ministry of Education

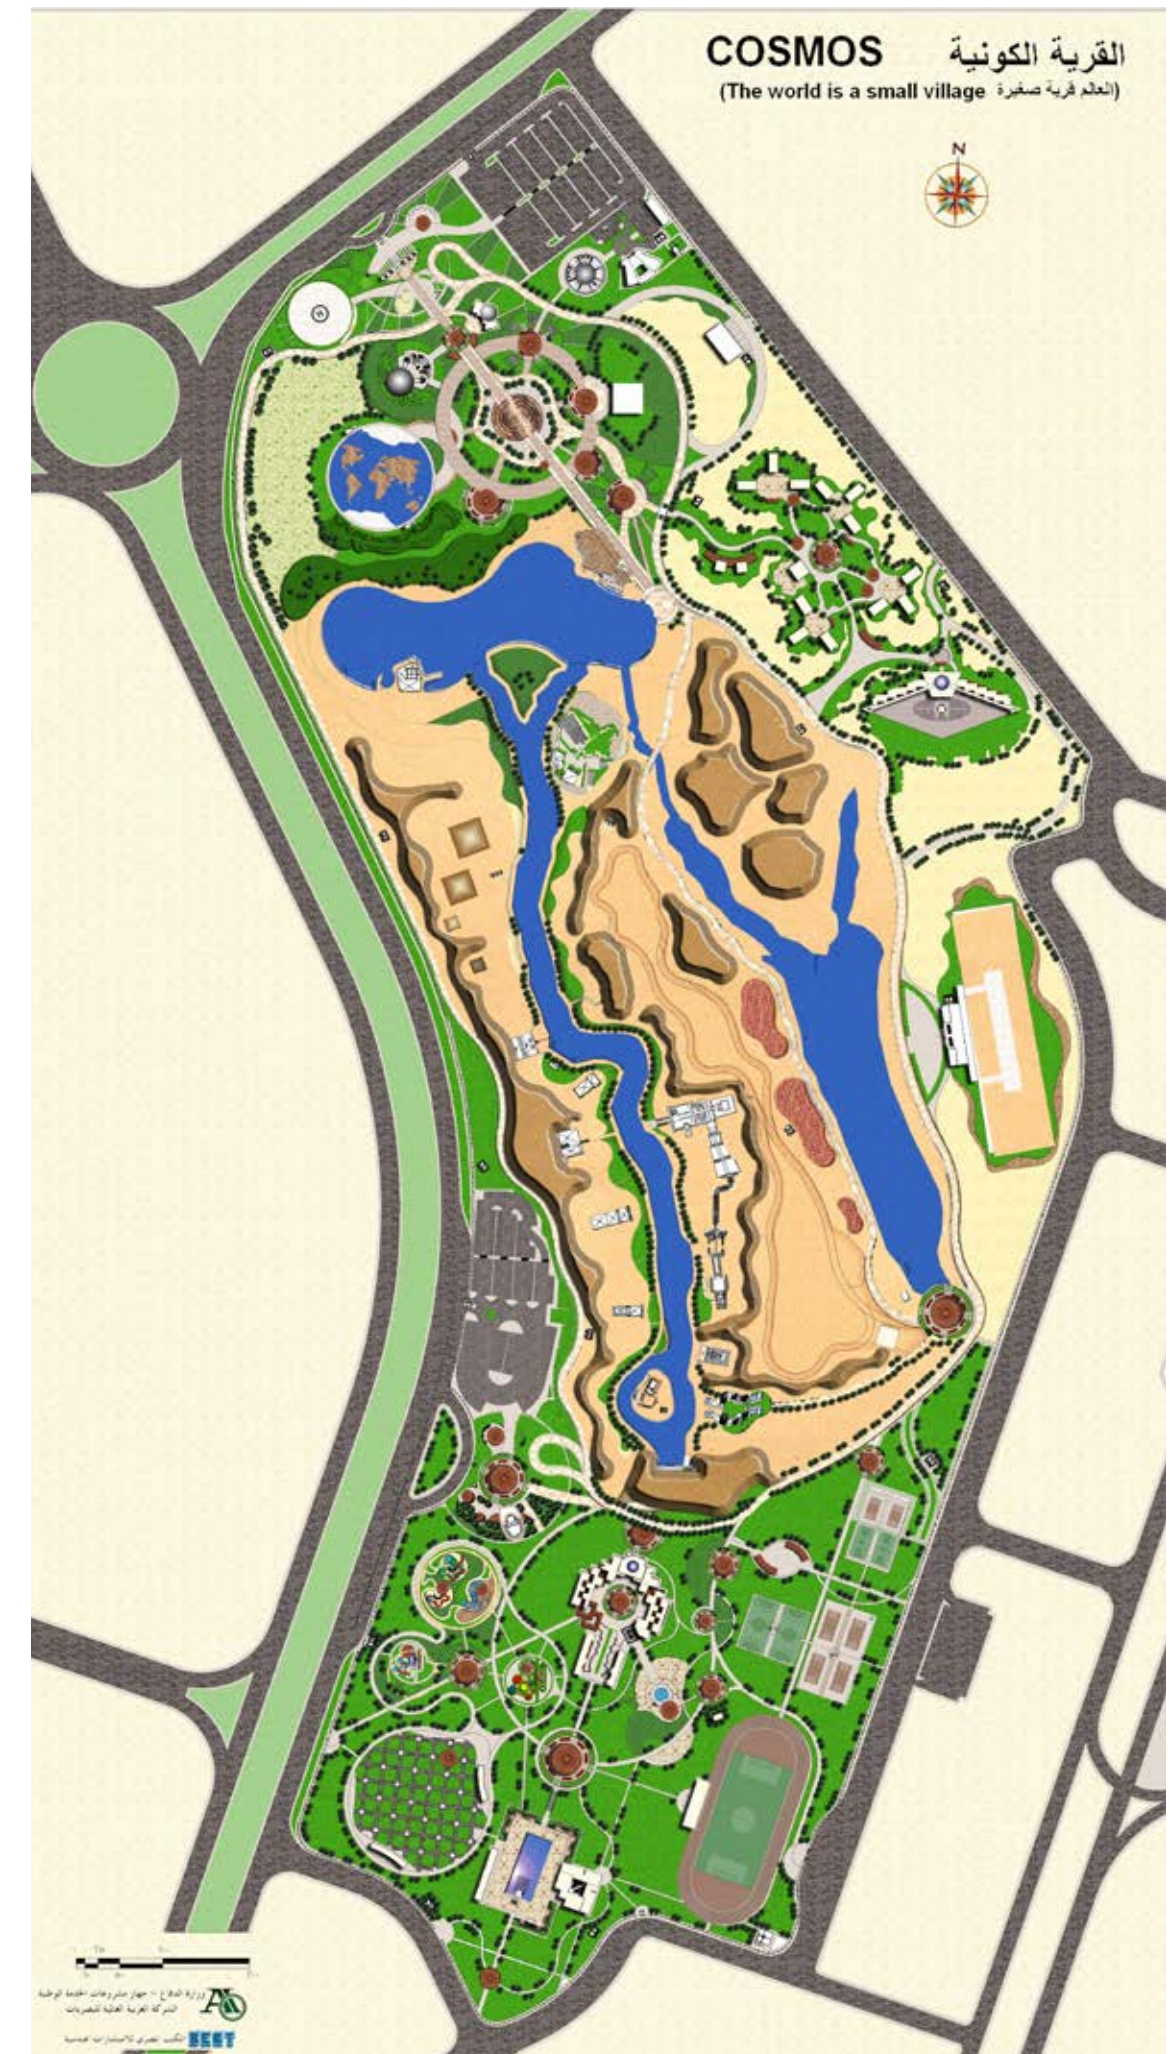

Project Area: 810, 000 m²

Estimated Construction Value: 335 million EGP

Date of Accomplishment: 2012

Description: Cosmos Village" or what can be called "Mini Egypt", a project adopted by the Ministry of Education to increase awareness about historic landmarks in Egypt. Cosmos Village is the first village to rely on the construction of real models that its visitors can verify. The educational, recreational and entertainment village aims to receive 2000 visitors a day.

Service: Architecture, Landscape, Interior Design, Structure/Civil, MEP, Urban Design & Planning, Project Management & Site Supervision

Ramses Square Development

Type: Urban Competition, 1st prize winner.

Location: Downtown Cairo, Egypt

Client: Ministry of Culture – Organization of Urban Harmony, Egypt

Project Area: 230 acres

Description: BECT is responsible for preparing feasibility studies and ensuring applicability of the project. Experts prepared detailed designs concerning the construction and completion of water & irrigation networks, pumping stations, carrier lines and reservoirs project. BECT linked the networks to the geographic information systems (GIS) of villages and governorate of El Baha region.

Service: Architecture, Structure/Civil, MEP, Project Management & Site Supervision

Supervision Over Monitoring & Controlling Chamber, Pump Station and Irrigation Networks in Aflaj

Type: Irrigation

Location: El-Ahsa, Saudi Arabia

Client: General Organization for Irrigation

Date of Accomplishment: In Progress

Description: Establishing a new central station that takes advantage of an existing main tank next to the station with a capacity of 10,000 m3. It contains (2)VFD pumps . The station pumps 442 m3/hour, feeding the entire city. Establishing a central control and monitoring room. Extending and creating new irrigation networks made of GRP pipes of various sizes and 2 km long. Extending and constructing new irrigation networks made of HDPE pipes of various sizes and with a length of 56 km Serving 194 beneficiaries (an area of 80 hectares).

Service:

- Works supervision
- Review and approval of designs and tender documents
- Progress report preparation
- Review and approval of time schedule
- Review the project's cash flow
- Approval of the materials
- Quantity survey
- Preliminary delivering of the project

Riyadh Treated Water Re-Usage Project

Type: Water Treatment

Location: Riyadh, KSA

Client: Ministry of Water and Electricity

Date of Accomplishment: 2021

Description: Treated water re-usage project is part of the visionary plan for Kingdom of Saudi Arabia to have 204 sewage treatment plants.

Service: Civil/Structure, MEP, Project Management & Site Supervision

Bish Water Transmission Pipeline

Type: Water Pipelines

Location: Jazan, KSA

Client: Ministry of Water and Electricity

Date of Accomplishment: 2015

Estimated Construction Value: 90 million SAR

Description: Construction of water transmission pipeline from Wadi Bish dam to Jazan water treatment plant was carried out in 14 months period that included geotechnical investigation, detailed civil and electromechanical design, design of all concrete elements, Value Engineering and preparation of tender documents.

Service: Civil/Structure, MEP, Project Management & Site Supervision

Rehabilitation of Water Resources & Irrigation System in Beheira

Type: Irrigation

Location: Beheira, Egypt

Client: Ministry of Water Resources and Irrigation

Date of Accomplishment: 2013

Description: Rehabilitation of water resources and irrigation system in El Beheira governorate.

Service: Structure/Civil, MEP & Environmental Studies

10 Underground Dams Jazan Region

Type: Dam

Location: KSA

Client: Ministry of Water and Electricity, KSA

Date of Accomplishment: 2011

Description: The project for Jazan region is concerned with developing the underground water utilization and augment the aquifer storage in semiarid basement environment with very limited natural groundwater and high drought propensity.

Service: Structure/Civil, MEP, Urban Design & Planning, Project Management & Site Supervision

Wadi Dayqah Dam

Type: Dam

Location: Wadi Dayqah, Oman

Client: Sultanate of Oman Ministry of Irrigation/ VINCI

Date of Accomplishment: 2011

Description: The dam was built to collect the periodic rain fall. The dam is by far the highest in the country.

Service: Architecture, Structure/Civil & MEP

Power + Energy

Baish Substations Package

Type: Substation

Location: KSA

Client: General Electric (GE)/Saudi Electric Company (SEC)

Estimated Construction Value: 85 million SAR /each

Date of Accomplishment: In Progress

Description: The project is divided into 4 main substations: Baish, Farsha, Muhaiyl and Wadi Ben Hashbal, and 4 extensions Haqu, Khamis North, Sabt Al Jarah and Tihama.

Service: Architecture, Structure/Civil, MEP & Technical Support

POC Baghdad Substations Package

Type: Substation

Location: Iraq

Client: General Electric (GE)/Iraq Ministry of Electricity

Estimated Construction Value: 50 million USD/each

Date of Accomplishment: In Progress

Description: Detailed civil and MEP design of POC Iraq electric substation which includes 3 substations (Al Hinidia, Al Sader and Rasafa).

Service: Architecture, Structure/Civil, MEP & Technical Support

Balgran Substations Package

Type: Substation

Location: KSA

Client: General Electric (GE)//Saudi Electric Company (SEC)

Estimated Construction Value: 70 million SAR /each

Date of Accomplishment: In Progress

Description: The project is divided into 2 main substations: Balgran and Bisha and 2 extensions El Arida and Sabya.

Service: Architecture, Structure/Civil, MEP & Technical Support

Zambia Substations Package

Type: GIS/AIS Substation

Location: Muzuma & Kafue, Zambia

Client: Alstom Grid/ZESCO

Estimated Construction Value: 20 million USD /each

Date of Accomplishment: 2017

Description: The Kafue / Muzuma 330/132kV GIS/AIS Substations Project is located in Lusaka Region for Kafue and South District for Muzuma, Zambia. It is considered a major support to the Grid System in Zambia and would provide electricity to a growing number of households in Kafue and Muzuma.

Service: Architecture, Structure/Civil, MEP & Technical Support

South Helwan Substation

Type: Substation

Location: Helwan, Egypt

Client: General Electric (GE)/EETC

Date of Accomplishment: 2015

Service: Architecture, Structure/Civil, MEP & Technical Support

IDP Iraq Substations Package

Type: Substation

Location: Iraq

Client: General Electric (GE)/Iraq Ministry of Electricity

Estimated Construction Value: 17 million USD / each

Date of Accomplishment: In Progress

Description: Detailed civil design of IDP Iraq electric substation which includes 4 Substations (Zayouna, Dewaneya, Rumaila and Shat Al Bashra).

Service: Architecture, Structure/Civil, MEP & Technical Support

Dammam HVDC Substation

Type: Substations

Location: Dammam, KSA

Client: Ministry of Water and Electricity/ Areva (T&D)

Estimated Construction Value: 76 million Euro

Date of Accomplishment: 2008

Description: Construction of a back-to-back converters facility for high voltage direct current (HVDC).

Service: Architecture, Structure/Civil, MEP & Technical Support

Lighting, Electricity and Renewable Energy Projects in Madinah

Type: Electrical Installations

Location: Madinah - KSA

Client: Madinah Municipality

Estimated Construction Value: 375 million SAR

Date of Accomplishment: In progress

Description: Developing, rehabilitating, and operating of roads and districts lighting in Madinah Municipality.

Service: Works supervision, Progress report preparation, Approval of materials, Quantity survey, Review and approval of time schedule, Approval of execution drawings, Approval of field tests, Participate in preliminary and final project delivering committees.

Healthcare

Katameya Hospital

Type: Private Hospital + Clinics

Location: New Cairo, Egypt

Client: Katameya Clinic For Medical Services

Area: 2,400 m²

Estimated Construction Value: 75 million
EGP

Date of Accomplishment: 2019

Description: Hospitals are complex projects with many spaces to be taken into consideration. This hospital was designed to best accommodate the spaces needed and to deliver the best environment for the doctors and the patients.

Service: Architecture, Interior Design, Landscape, MEP,
Structure/Civil, Project Management & Site Supervision

Ain Shams University Medical City

Type: Hospital - Clinics - Educational

Location: Cairo, Egypt

Client: Egyptian Ministry of Higher Education

Estimated Construction Value: 4 billion EGP

Date of Accomplishment: 2018

Description: Complete Urban Design, Site Coordination, and Detailed Designs for Ain Shams University Medical City, with the development of the main axes, facades, the main square, and design of the gates and walls of the hospital campus. As well as, the development of "Demerdash Palace" and the construction of a new ER building and the construction of a multi-storey garage.

Service: Architecture, Structure/Civil, MEP, Urban design, Planning, Landscape, Tender Documents, Project Management & Site Supervision

Lazik Hospital

Type: Private Hospital

Location: Heliopolis, Cairo, Egypt

Client: Retina Consultant Center

Area: 370 m²

Date of Accomplishment: 2009

Description: The preparation of the Conceptual and Detailed design, and Tender Documents for a specialized Retina Center in Heliopolis.

Service: Architecture, Structure/Civil, MEP, Tender Documents, Project Management

Al-Laith Hospital

Type: Hospital

Location: Al-Laith, KSA

Client: Saudi Ministry of Health

Estimated Construction Value: 40 million EGP

Date of Accomplishment: 2011

Service: Architecture, Structure/Civil, MEP & Technical Support, Project Management

Alexandria Police Hospital

Type: Hospital

Location: Alexandria, Egypt

Client: Ministry of Interior Affairs

Date of Accomplishment: 2009

Service: Architecture, Structure/Civil, MEP & Technical Support, Project Management

Cairo Scan

Type: Medical Establishment

Location: Egypt

Client: Private Sector

Estimated Construction Value: N/A

Date of Accomplishment: 2008

Service: Architecture, Structure/Civil, MEP & Technical Support, Project Management

Orouba Hospital

Type: Hospital

Location: Egypt

Client: Private Sector

Estimated Construction Value: N/A

Date of Accomplishment: 2008

Service: Architecture, Structure/Civil, MEP & Technical Support, Project Management

Headquarters + Offices

GIG Headquarter

Type: Office Building

Location: New Cairo, Egypt

Client: Arab Misr Insurance Group / GIG

Area: 6 floors & 2 undergrounds , 4,500 m² each

Date of Accomplishment: 2021

Estimated Construction Value: 80 million EGP

Description: GIG headquarter was designed in a modern way to reflect the user's vision of a new identity.

Service: Architecture, Structure/Civil, MEP, Landscape, Interior Design, Environmental, Project Management & Site Supervision

IFAO New Library

Type: Library/Co-working Building

Location: Downtown Cairo, Egypt

Client: IFAO

Area: 2,400 m²

Date of Accomplishment: In Progress

Description: An extension for the actual IFAO (Institut francais d'archeologie orientale) is designed to serve the new needs. This extension hosts a library space with a special collection area conserving rare archeological documents.

Utopia Pharmaceutical Factory

Type: Private pharmaceutical factory

Location: 10th of Ramadan, Egypt

Client: Utopia Pharmaceuticals

Area: 18,296 m²

Estimated Construction Value: 320 million EGP

Date of Accomplishment: 2022

Description: Pharmaceutical factory built following the highest technologies in the industry. It hosts offices, administration areas as well as a technical areas; labs...etc.

Service: Architecture, Interior Design, Landscape, Environmental, Structure/Civil, MEP, Project Management & Site Supervision

New Textile, Dyeing and Preparations(1) & (2) Factories, External Networks and Service Buildings in Mahalla El Kobra

Type: Factories

Location: Mahalla El Kobra - Egypt

Client: Cotton & Textile Industries Holding Co.

Estimated Construction Value: 2 billion EGP

Date of Accomplishment: In Progress

Description: The new textile, dyeing and preparations (1) and preparations (2) factories group in for Misr Spinning and Weaving Co. in Mahalla El Kobra, in addition to external networks and service buildings.

Service: Reviewing detailed designs (arch, str, elec and mech), Reviewing and approving execution drawings (arch,str, elec and mech), Works supervision, Monitor project quality plan and adherence to HSE standards, Approval of materials and receipt of works, Cost control while adhering to the schedule

Rehabilitation and Construction of Textile, Dyeing and Preparations Factories in Dakahlya

Type: Factories

Location: Dakahlya - Egypt

Client: Cotton & Textile Industries Holding Co.

Estimated Construction Value: 700 million EGP

Date of Accomplishment: In Progress

Description: The rehabilitation and construction of Detex Co. For Spinning & Weaving factories in Mansoura City -Dakahlya Governorate.

Service: Reviewing detailed designs (arch,str, elec and mech), Reviewing and approving execution drawings (arch, str, elec and mech), Works supervision, Monitor project quality plan and adherence to HSE standards, Approval of materials and receipt of works, Cost control while adhering to the schedule

Rehabilitation and Construction of Spinning and Weaving Factories in Menya

Type: Factories

Location: Menya - Egypt

Client: Cotton & Textile Industries Holding Co.

Estimated Construction Value: 500 million EGP

Date of Accomplishment: In Progress

Description: The rehabilitation and construction of Upper Egypt for Spinning and Weaving Co. factories in Menya governorate.

Service: Detailed designs preparations (arch,str, elec and mech), Tender documents preparation, Works supervision, Monitor project quality plan and adherence to HSE standards, Approval of materials and receipt of works, Cost control while adhering to the schedule

New Cotton Gins

Type: Factories

Location: Zagazig, Kafr ElZayat, Kafr ElDawar, Egypt

Client: Cotton & Textile Industries Holding Co.

Estimated Construction Value: 500 million EGP

Date of Accomplishment: 2021

Description: Construction of three new cotton gins located in 3 Egyptian governorates: Zagazig, Kafr El Dawar, and Kafr El Zayat.

Service: Architecture, Structure/Civil, MEP, Project Management & Site Supervision

Schneider Factory

Type: Private factory

Location: Badr City, Egypt

Client: Schneider Electric Company

Area: 27,000 m²

Estimated Construction Value: 70 million EGP

Date of Accomplishment: 2008

Description: The design emphasized Schneider's vision of redefining power and automation for a new world of energy which is more electric, decarbonized, decentralized, and digitized.

Service: Architecture, Landscape, MEP, Structure/
Civil, Project Management & Site Supervision

Refurbishment + Renovation

Mission Economique D'Egypte

Institut Francais D'Egypte

WFP Regional Office

Type: Office

Location: Zamalek, Cairo, Egypt

Landscape

Egypt's National Universities

Type: Universities Landscape

Location: Several cities, Egypt ; Banha, Zagazig, Bani Suif, Helwan, Mansoura, Ganoub El Wadi, El Minya, Assiut, Qanat El Suez, Port Said, Mnufia

Client: Ministry of Higher Education

Date of Accomplishment: 2020

Description: A landscape design that provides an enjoyable experience for the user. Local plantations & green areas are expended over the plan to provide freshness and friendly environment as well as shade. Several spaces were included in the design like courts, pergolas areas, tents areas, food courts...etc.

Service: Urban Design & Planning & Landscape

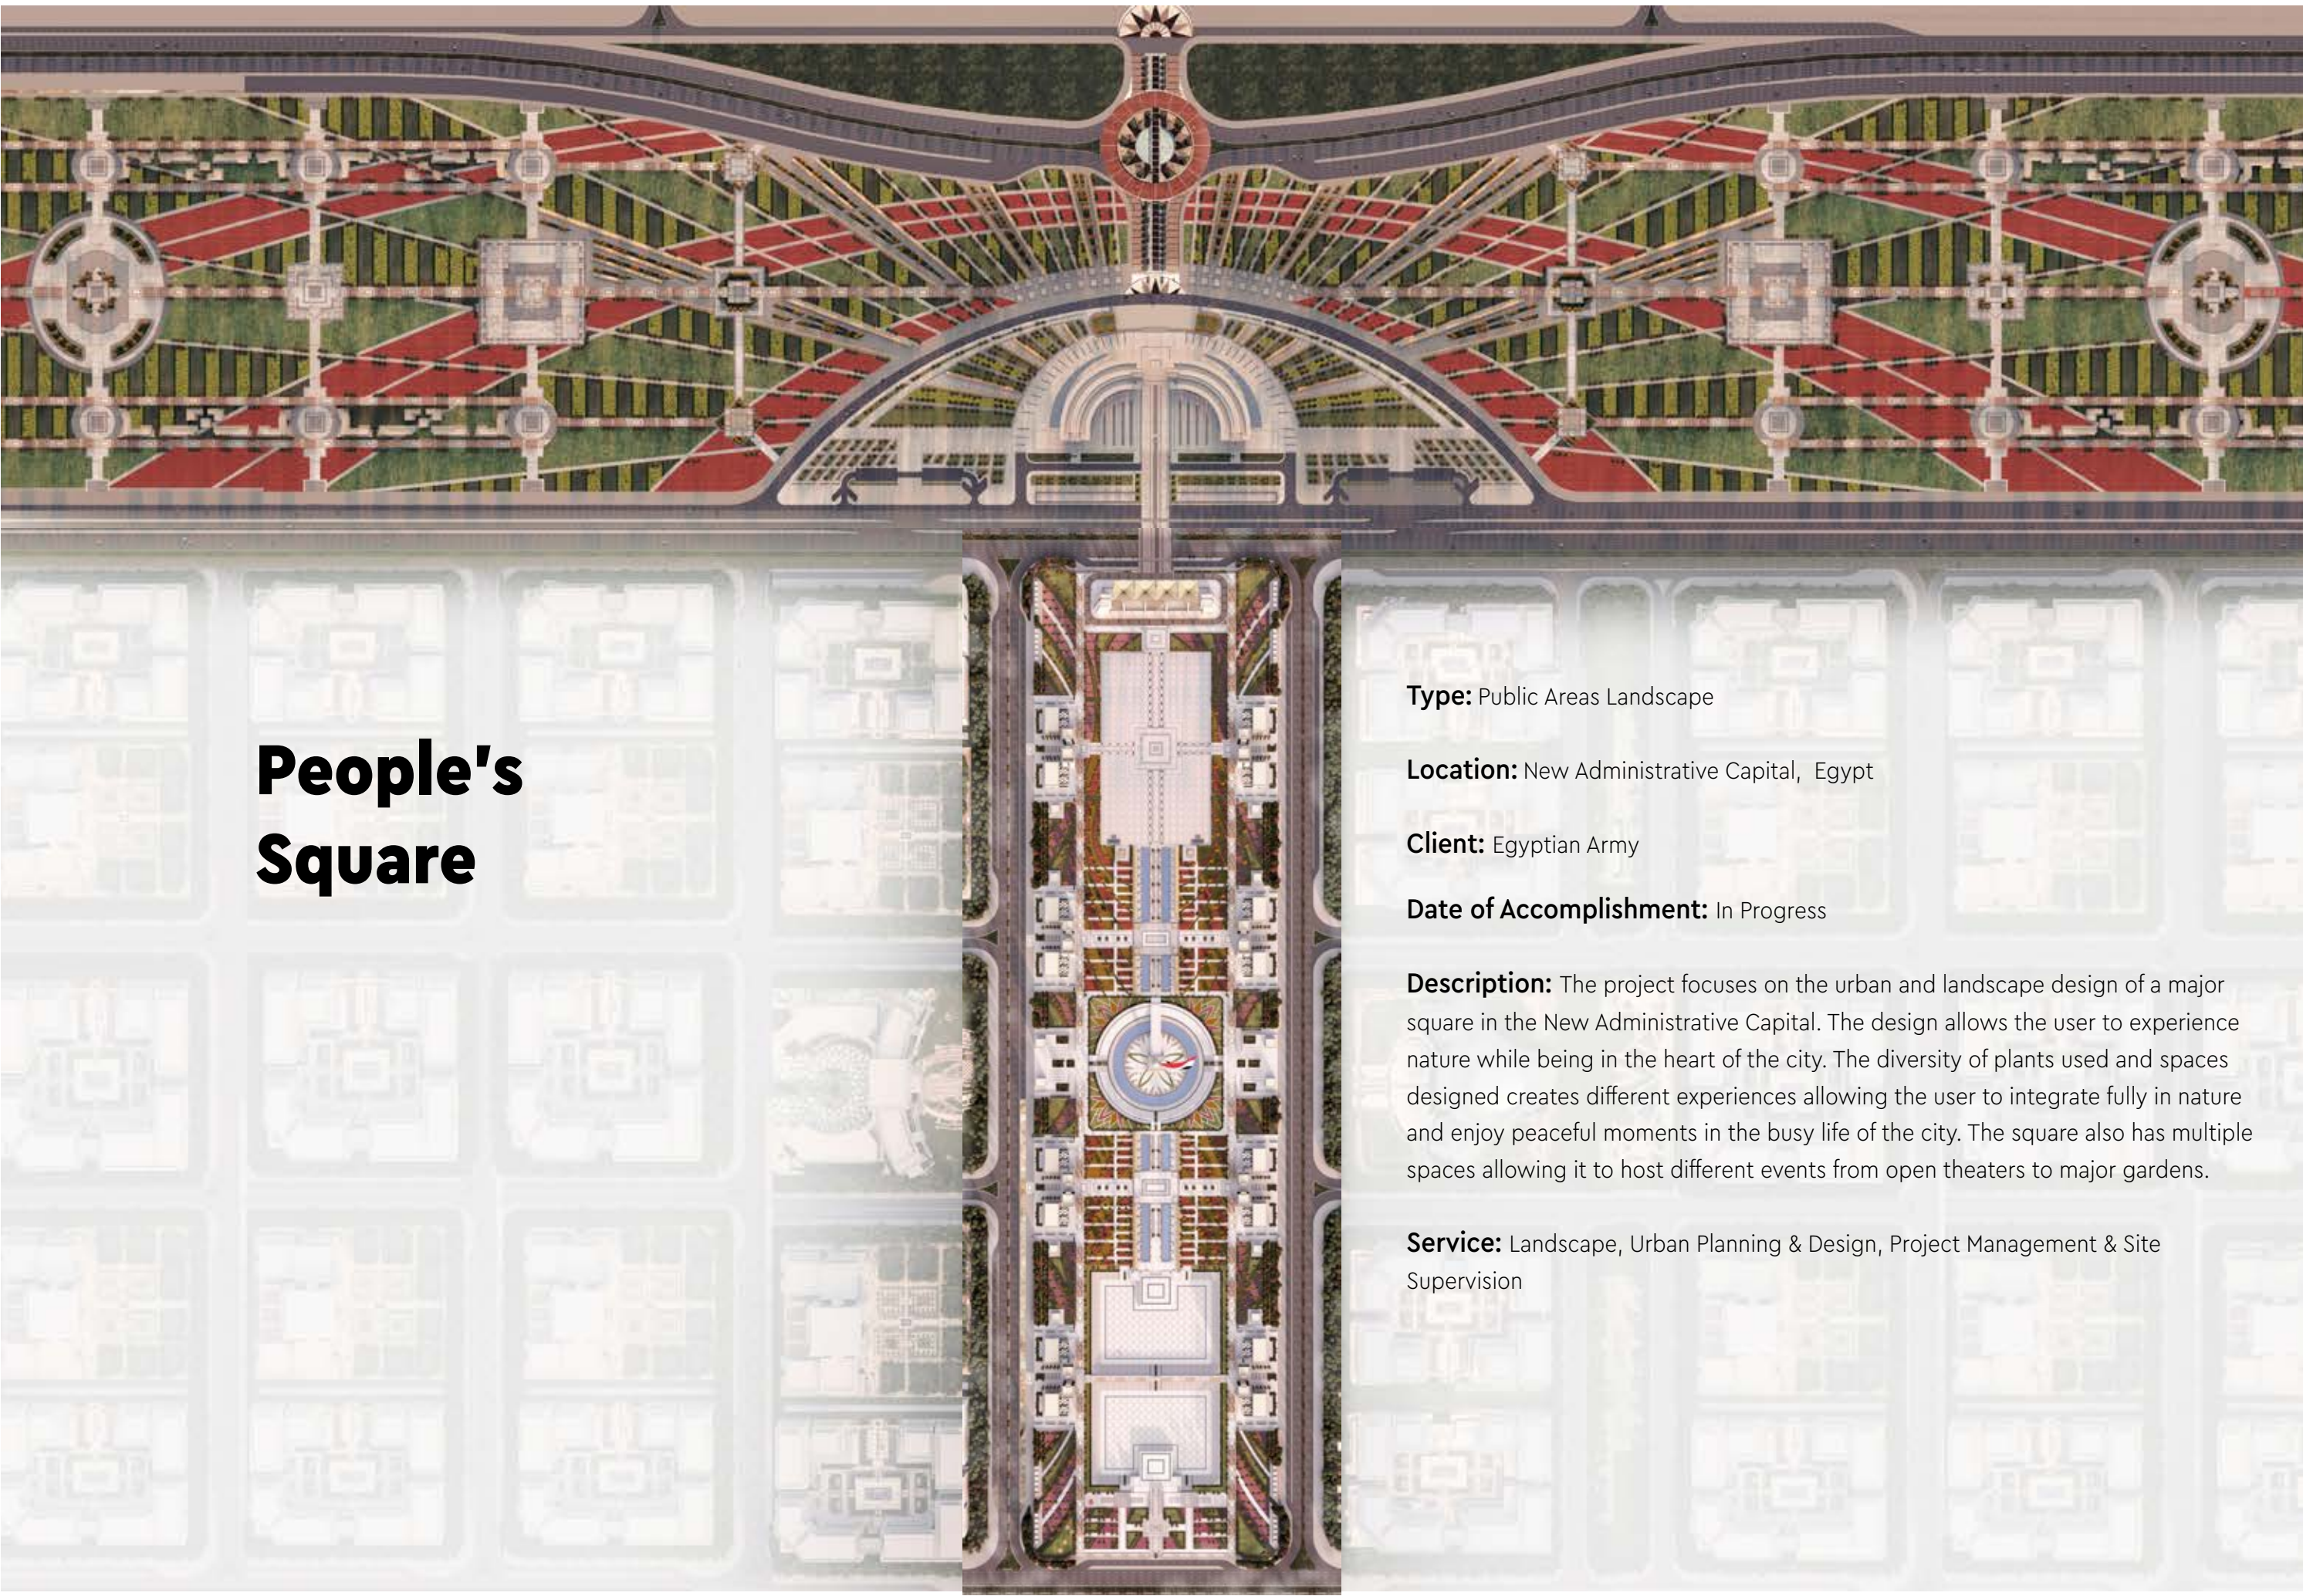

Bani Suif University

Port Said University

Assiut University

The image is a detailed architectural rendering of a large urban square. The top half shows a wide, symmetrical view of the square, featuring a central semi-circular structure with a large archway. Radiating from this center are numerous paths and green spaces, interspersed with red and green diagonal stripes. The bottom half shows a more detailed, vertical cross-section of the square, highlighting the central axis and the surrounding urban grid. The overall design is highly symmetrical and formal.

People's Square

Type: Public Areas Landscape

Location: New Administrative Capital, Egypt

Client: Egyptian Army

Date of Accomplishment: In Progress

Description: The project focuses on the urban and landscape design of a major square in the New Administrative Capital. The design allows the user to experience nature while being in the heart of the city. The diversity of plants used and spaces designed creates different experiences allowing the user to integrate fully in nature and enjoy peaceful moments in the busy life of the city. The square also has multiple spaces allowing it to host different events from open theaters to major gardens.

Service: Landscape, Urban Planning & Design, Project Management & Site Supervision

Transportation

GREATER CAIRO METRO LINES

Providing Services Since 1996
